

FLOORS & WOOD

How to maintain an oiled wooden floor

Keep your oiled floor looking good and matt – step by step.

What you need

- **DURO PARKETT – Scented cleaner for parquet and laminate**

Dosage: Manual cleaning: 20–40 ml per 8 litres of water · Machine cleaning: 10–20 ml per 10 litres of water

- **Ædelhårdvoks – Hard wax for wood and parquet**

Dosage: Depending on the material and age of the floor covering, 1–2 l per 100 m² (per coat). Apply undiluted with a sprayer after cleaning.

How to do it

- 1 Sweep or vacuum thoroughly.
- 2 Wash with a mild product for wood. Dose according to the product data sheet.
- 3 Use a well wrung-out mop.
- 4 Treat the floor when it looks dry and grey. Follow the care product's instructions.
- 5 Let it dry completely before you put the furniture back.

Safety

- Read the label and data sheet before use.
- Test a small, hidden spot first.
- Oily rags can self-ignite. Put them in water or a closed metal container.

Common mistakes

- Using strong deep cleaners on oiled wood.
- Waiting too long before applying care.

Questions and answers

How do I know if the floor is oiled?

Oiled wood is usually matt and feels like wood. Lacquer is glossy and smooth.

Always follow the product label and data sheet. Data sheets are available at glenex.dk.
